Safe-Skeg Ultimate Stainless Steel Skeg Protection

Whether you are looking to protect your new skeg, repair your damaged one or even just add some shine. Safe-Skeg is made of 316 Marine Grade Stainless Steel Construction. Installation takes minutes.

Material Thickness: 1.5mm, 50% thicker than the competition.

Drain Hole to protect against corrosion and freeze-up.

Brilliantly polished with seamless design.

Skid Plate not necessary due to extra thickness in material.

Packaging identifies which motors each specific models will fit.

Does it look like this now?

It can look like this in minutes
