

BOAT PREP CHECKLIST

- 1 Check all hoses for cracks or breaks. Replace with **Trident Marine** hose as needed.
- 2 Flush antifreeze from your water systems.
- 3 Change your oil using the proper **Sierra Oil** and replace your oil filter with the appropriate **Baldwin Filter**.
- 4 Consider changing your fuel filter with a new **Racor Fuel Filter**.
- 5 Check your boat's hull for any damage. Repair as needed.
- 6 Clean and scrape the bottom of your boat if it is accessible. Consider painting your hull with **Pettitt Antifouling Paint**.
- 7 Check windows and lights for any indication of leaks. Seal as needed.
- 8 Lubricate winches, anchor windlass, blocks, and pad eyes.
- 9 Check and replace zincs as needed.
- 10 Check engine belts and replace as needed.
- 11 Check transmission fluid levels and quality.
- 12 Check spark plugs and replace as needed.
- 13 Change the gear lube if you didn't during winterization.
- 14 Check battery, clean battery terminals, and top up with distilled water if need.
